Ancillaries and additional services

Replacement vehicles

In the event of non-availability, breakdown, or if requested by the hiring agent.

Vehicle of a different category

DWG

If the Lessor provides a replacement vehicle that belongs to a lower category than that of the rented vehicle, the customer will pay the lower rate that applies to the replacement vehicle, for the whole period of its actual use. A "vehicle in a lower category" means a vehicle to which a rate applies that is lower than the rate for the vehicle originally rented.

UPG

Regardless of whether the rented vehicle has been reserved or is already in use, if the Lessor provides a replacement vehicle in a higher category, for the following 15 days the customer will pay the rate for the vehicle in the lower category. This condition may be revoked at any time, with 48 hours' notice, by simple request from the Lessor. After 48 hours, or if the customer fails to return the vehicle within the 15 days, the Lessor shall retrospectively, and for the entire rental period, apply the rate for the vehicle actually being used. The 15-day period means the total number of days, not necessarily consecutive, during which the customer has actually used one or more vehicles in higher categories. "Vehicles in higher categories" means vehicles to which rates apply that are higher than the rate for the vehicle booked or already in use.
